

CO27

Spiral vibration damper

Code CO27

GTIN 6418677409141

ENumber

Name Spiral vibration damper

Length 1540 mm, rod diameter 13 mm,
diameter range 11.5-14.5 mm

Description Spiral Vibration Dampers are designed to control high frequency aeolian vibration and are particularly effective on small sized earth wires and cables. They do not impose a concentrated mass or clamping stress on the conductor or cable at the point of attachment and are therefore ideally suited for use on OPGW, OPCON and ADSS applications.

Technical specification

Dimensions

Weight:	0.46 kg
Length:	1540 mm
Diameter:	11.7 ... 14.3 mm
Covered conductors:	35 ... 50 mm ²

Ratings

ETIM 7:	EC000033 Installation strap
---------	-----------------------------

Specification

Use:	SPIRAL VIBRATION DAMPER(SVD) FOR USE WITH OPGW, OPCON CONDUCTORS AND ADSS CABLE System Voltage
Construction:	MATERIAL
Installation:	RECOMMENDED NUMBER OF SPIRAL VIBRATION DAMPERS

ETIM

ETIM

Material quality:	Other
Colour:	White
Width:	12 mm
Material:	Plastic
