Certificate of Compliance

Regulation (EC) No 2023/1115 – Regulation on Deforestation-free products

We herewith confirm that all ArmaFlex products, manufactured and/or distributed in the European Union have been produced without deforestation and comply with the laws of the producer countries and with the requirements of EC 2023/1115.

The term rubber within the meaning of the regulation 2023/1115 describes natural rubber obtained from corresponding rubber plantations. Synthetic rubbers, on the other hand, are based on feedstocks which are not associated with deforestation and forest degradation.

Armacell does not use any natural rubber for manufacturing ArmaFlex products.

Münster, 03.06.2024
